

The Monroe Temple of Liberal Judaism is excited to offer our members a community solar option that will save money and help our temple at the same time through the Reflective Energy Solutions (RES) Affinity Program. It is a win-win situation!

RES has teamed up with Nexamp, a leading provider of community solar, that supports the environmentally friendly benefits of solar power generation, without installing any solar panels on your property. Attached is an overview, including FAQ (frequently asked questions), and contact info.

Key points to our temple's community solar program:

- Nexamp will apply 100% of solar generation bill credits to the customer's electric utility bill, and then Nexamp will invoice separately for 90% of the bill credit value, leaving the customer with 10% savings every month on the bill credit. On a monthly basis, Nexamp's credits may exceed or fall short of the entire utility bill, depending on the amount of Nexamp's bill credit versus the amount of the electric utility bill.
- The customer may terminate this agreement without penalty at any time by providing Nexamp with 90 days advance written notice.
- The temple will receive a commission for each enrollment.

To take advantage of this offer, please forward a recent electric utility bill (all pages) to:
Miriam Stiefel, the Affinity Program Director.
Email MiriamR@ReflectiveES.com or fax 201-540-2088 Attn: Miriam.

To learn more about the temple's Affinity Program, contact Miriam above.
